### **MoreSteam.com offers a full online Lean Six Sigma training curriculum and certification for individuals and process improvement deployments.**

Using world-class instructional design and proprietary delivery methods, MoreSteam's online courses decrease training costs, increase training flexibility, and advance student and deployment performance.

We strive to provide our students and customers with the best possible content, technology, and online learning experience.

We have trained over 350,000 professionals and over 2,000 corporate customers (including over 50% of the Fortune 500).

### **Why Choose MoreSteam's Online Training?**

#### **1. We emphasize practice in our content.**

Our courses use of interactive exercises, quizzes, toolsets and simulations that prepare you to complete real projects. Our training is not online PowerPoint slides or pre-recorded Webcasts, but a multimedia blend geared towards adult learning.

#### **2. On-demand content means complete flexibility.**

*In e-Learning, you control the pace of action.* e-Learning brings the knowledge directly to you, no matter where you are or when you need it. You have complete freedom to explore and revisit lessons.

#### **3. Our e-Learning is more effective and affordable.**

Our courses cost roughly 20% of instructor-led classroom training. With MoreSteam's e-Learning, you eliminate travel and materials expenses (for you or your trainer) and make best use of natural business downtime, when you're ready and able to learn.

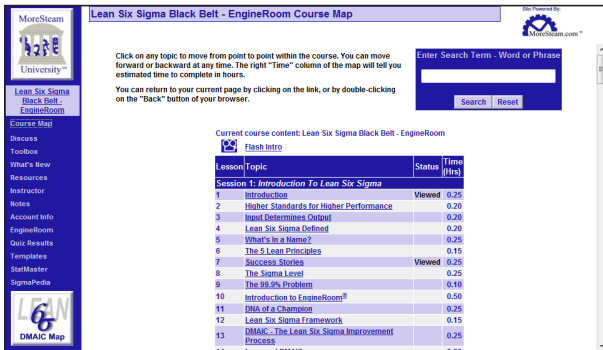

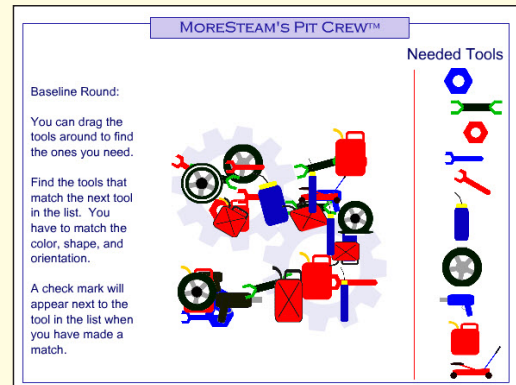

# Learning<sup>®</sup>

## The Most Effective Form of Training

In addition to cost savings, online training offers many advantages over instructor-led classes: scheduling flexibility, easy access, self-paced learning, responsive quizzes, and more. The mixed media reinforce key lessons, keep you motivated and help you to retain the material.

Our e-Learning is easily scaled to meet the needs of any size of deployment. Deployments can easily integrate our courses with existing classroom content to create a unique blended training model.

## Approved, High-Quality Content

While live training classes are highly dependent on the skills of individual instructors, MoreSteam's classes provide a consistent, high-quality learning experience.

Our materials are preferred by major partner universities and consultancies. We are the exclusive provider of online Lean Six Sigma content for the American Society for Quality (ASQ), who regularly reviews and approves the content.

## Customize Your Course to Fit Your Needs

Looking for relevant content and language options? Our Black, Green and Yellow Belt courses come in Healthcare, Service, Manufacturing and Financial Services versions.

Black and Green Belt training can also include integrated tutorials for EngineRoom®, Minitab®, or JMP® software.

Our Yellow and Green Belt courses are available in a growing number of foreign languages.

## System Requirements

Your computer must have these *minimum* requirements for full functionality: Microsoft Windows® with Microsoft Office® with Excel®, Word® and PowerPoint® (MS Office® 2007 or higher recommended), sound card and speakers or headphones, high-speed Internet connection, Internet browser (Internet Explorer 8.0, Firefox 7.0 or higher) with Java enabled, and the latest versions of Adobe Acrobat Reader and Adobe Flash Player.

## ABOUT MORESTEAM.COM LLC

MoreSteam.com, the leader in online Lean Six Sigma training and technology, enables organizations of all sizes to advance their performance by delivering powerful, scalable tools for process improvement.
